

**We created a form for recording the litter based on the one the Streets Department uses. A link to the form can be found in the Quick Links to the right. Fill out this form for 3 locations at your school by the end of the school year to help the city learn how to help you take data-driven action on litter!**

Please find at least three locations to record - one form per location as follows

School Entrance

Dumpster Area

Additional Outdoor Area

You are welcome to fill out additional forms for as many areas you notice have litter
