# 2023-24 Overview: Survey Content and Purpose

The Pennsylvania Department of Education (PDE) requires an exit survey to be offered to all high school seniors in each district in the state.

In the School District of Philadelphia, the Office of Research and Evaluation (ORE) administers the annual **Senior Exit Survey**.

The survey asks students about:

- Their plans to pursue additional education, employment, or other activities within one year after high school.
- High school experiences and activities (including volunteering, internships, and clubs).
- Support received in preparing for college and career.

The survey also gives students the opportunity to provide their email and/or cell phone number for the purposes of receiving follow up surveys. Of those surveyed in 2023-24, 88% provided contact information.

The 2022-23 Senior Exit Survey report is located [here](#).

*Note: There may be differences between values reported here and values reported in previously published reports. In those cases, the values reported in this slide deck should be considered to be the most accurate.*

# 2023-24 Overview: Survey Administration

The survey was open from October 10, 2023 to August 2, 2024:

- October 10, 2023 - The survey opened for Alternative Education (Alt Ed) and Educational Options Programs (EOP) in the Opportunity Network.
- May 1, 2024 - The survey was slightly modified and opened additionally to all District schools.\*
- August 2, 2024 - The survey closed.

The survey was hosted in SurveyMonkey, and daily completion updates were provided to high school counselors:

- Students accessed the survey via a link in their student portal, which automatically imported students' IDs and school codes.
- Counselors were primarily responsible for ensuring that students completed the survey and used a variety of strategies to connect with students to encourage completion.
- SDP staff and school counselors gave support with instructions, reminders, and suggestions for maximizing response rates.

\*All altered questions are noted in this slidedeck.

*Note: Students enrolled in Charter schools or private schools were not included.*

# 2023-24 Overview: Administration (Oct. 10 - April 30)

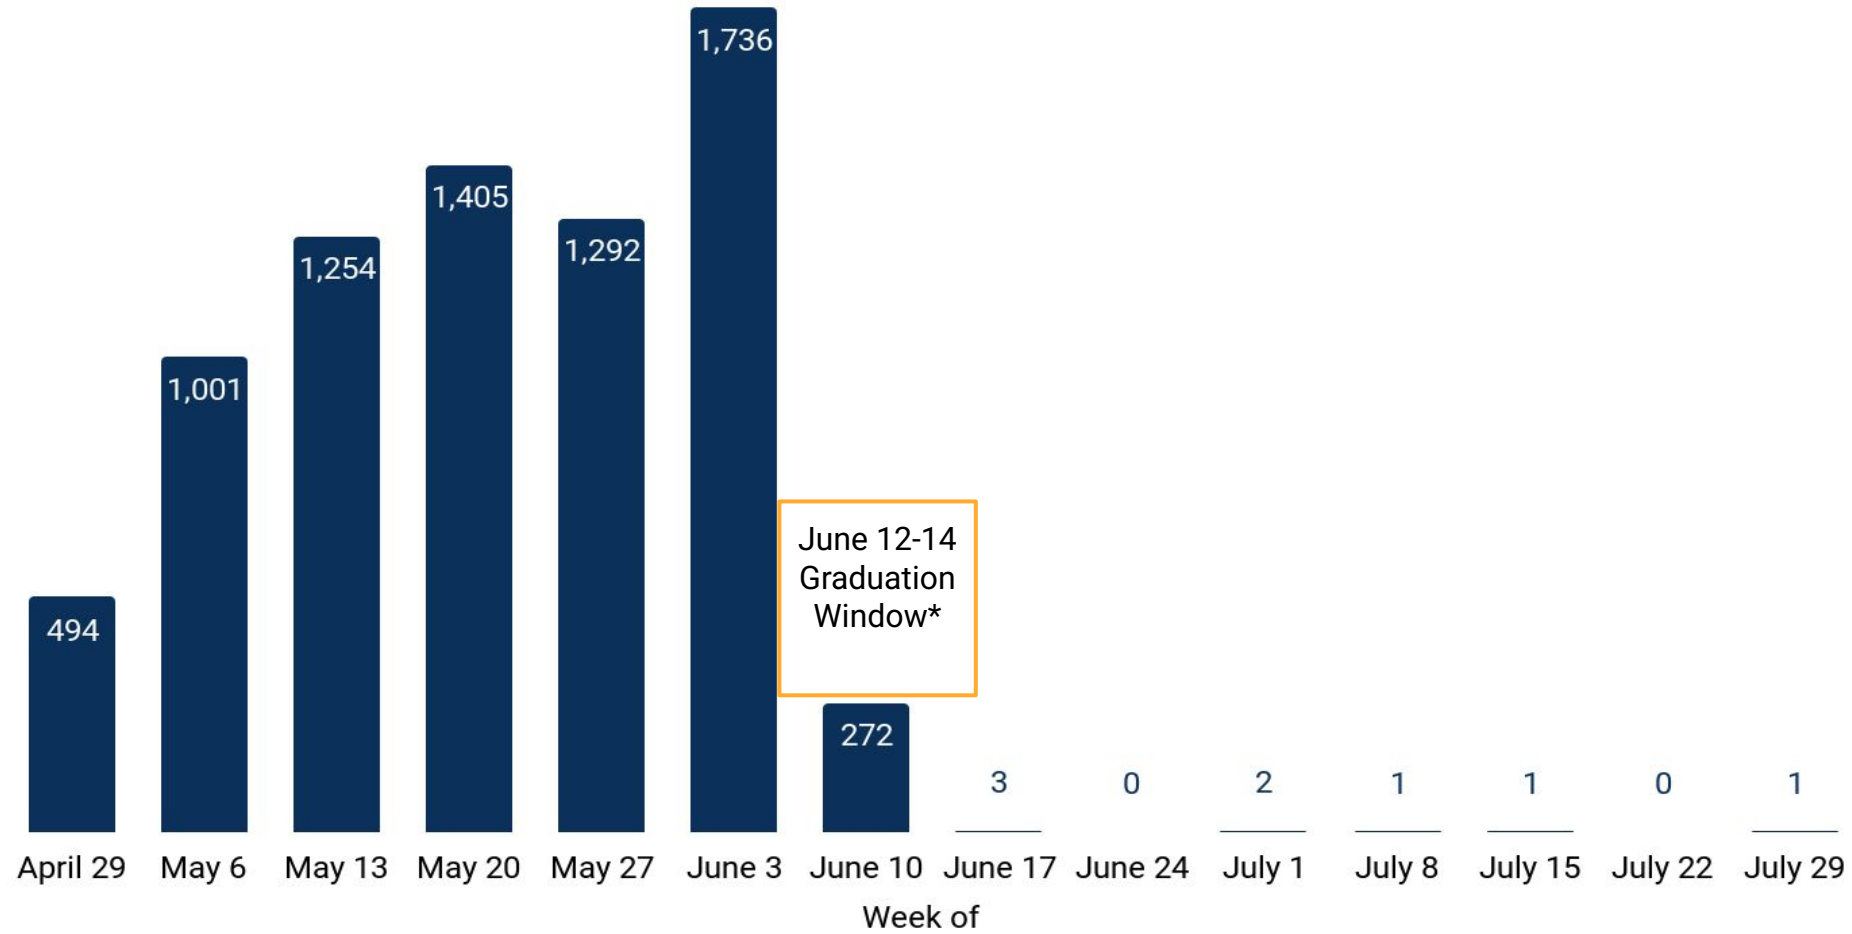

Student Responses by Week - Opportunity Network Schools with Alt Ed/EOP

N=577; data displays the raw response rates. Duplicates and ineligible responses were later removed.

# 2023-24 Overview: Administration (May 1 - Aug. 2)

Student Responses by Week - All District Schools

N=7,462; data displays the raw response rates. Duplicates and ineligible responses were later removed.

\*Graduation dates vary slightly from school to school.

# 2023-24 Overview: Respondent Characteristics

- Asian ● Black/African American ● Hispanic/Latine ● Female ● Male\*\* ● Non-English Learner ● English Learner ● Does not have an IEP ● Has an IEP†
- Multiracial/Other\* ● White

**6,718** completed responses from students with 12th grade status at 78 District high schools, representing 73.4% of enrolled 12th graders.‡

Note: Percentages may not add up to 100% due to rounding.

\*Native Hawaiian/Pac. Islander and Am. Indian/Alaskan Native combined into Multiracial/Other due to small sample size

\*\*Non-binary excluded from calculation due to small sample size

†Individualized Education Program (IEP)

‡See Appendix for response rates by school.

# Representativeness

# Key Findings: Representativeness of 2023-24 Respondents

In collecting and analyzing Senior Exit Survey data, we consider the extent to which characteristics of survey respondents are representative of all District 12th graders. This ensures that certain groups' opinions are not magnified while others are understated.

- Overall, the representativeness of 2023-24 Senior Exit Survey respondents was similar to the previous year (2022-23).\*
- For the Class of 2024, 73.4% of 12th graders completed the survey.
  - This is a 1.4 percentage point increase from the Class of 2023, where 72% of 12th graders completed the survey.\*
- 2023-24 Senior Exit Survey respondents were generally representative of District 12th graders.
- Compared to the full population of 2023-24 12th graders, 2023-24 Senior Exit Survey respondents were less likely to:
  - Be male (1.4 percentage points).
  - Be Black/African American (1.4 percentage points).
  - Be Non-English Learners (1.2 percentage points).
  - Have an IEP (4.7 percentage points).

The 2022-23 Senior Exit Survey report is located [here](#).

*\*The comparison group includes all students from the surveyed schools' pool of students who completed the academic year and/or graduated.*

# Female students represented 49.8% of all Class of 2024 District 12th graders, and about 51.2% of those who took the Senior Exit Survey.

## Class of 2024

Source: Enrollment counts are based on 12th Grade District Enrollment at the time the Senior Exit Survey closed (August 5, 2024).

Note: District students with missing or unknown demographic information are excluded. See Appendix for list of schools included in sample.

*Non-binary* was excluded from calculation due to small sample size.

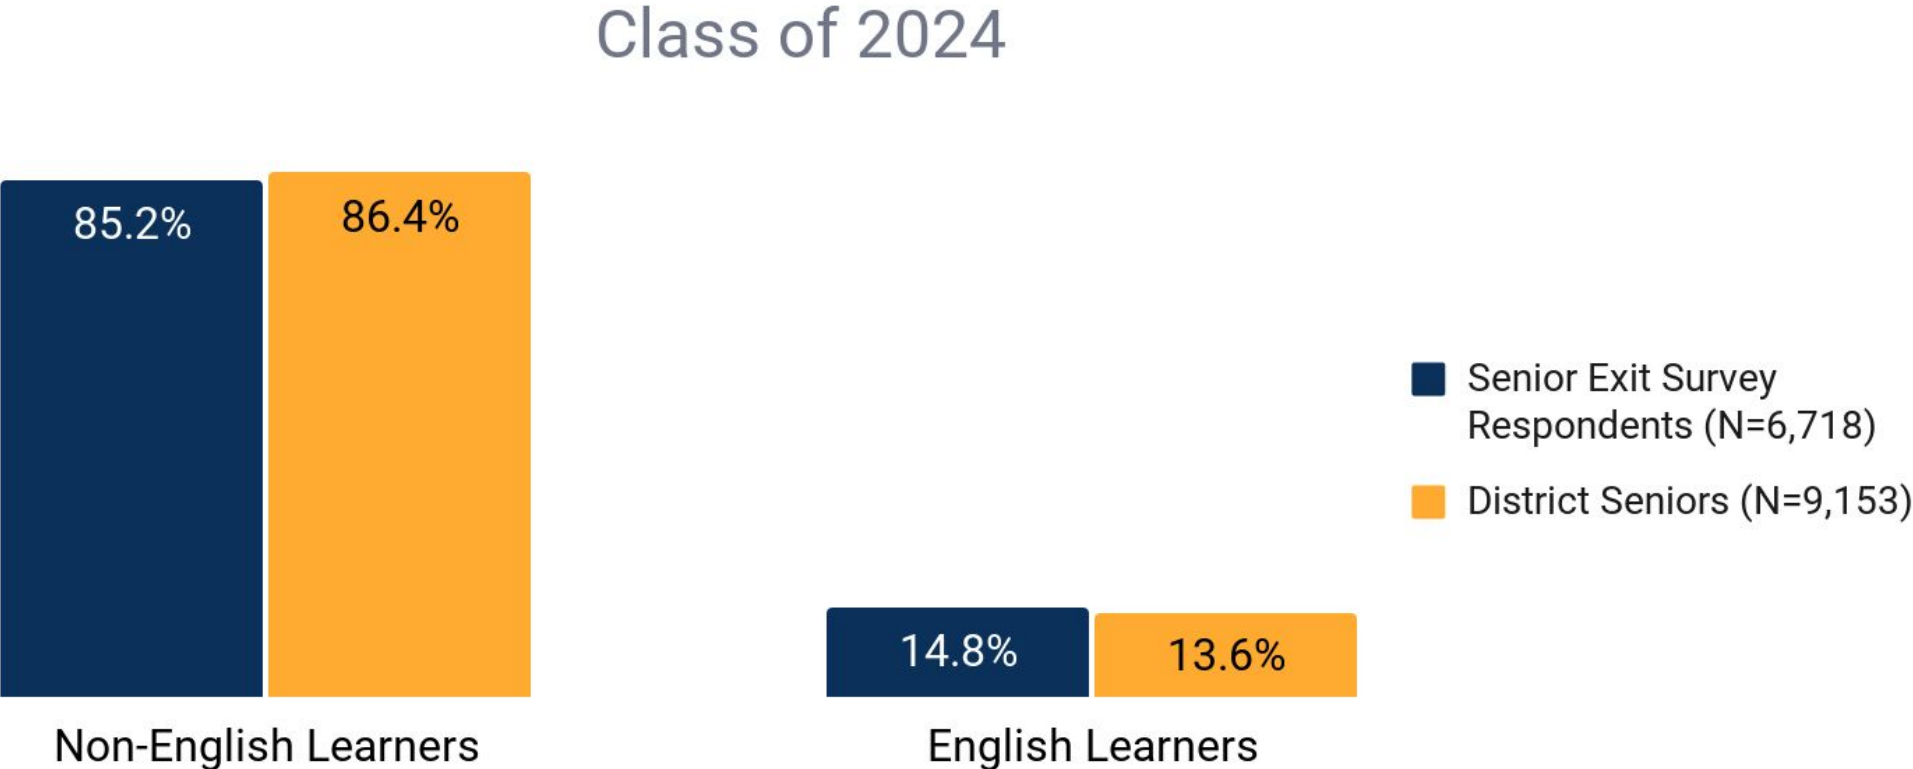

**Black/African American students made up 50.1% of District 12th graders, and about 48.7% of Senior Exit Survey respondents.**

Class of 2024

Source: Enrollment counts are based on 12th Grade District Enrollment at the time the Senior Exit Survey closed (August 5, 2024).  
Note: District students with missing or unknown demographic information are excluded. See Appendix for list of schools included in sample.  
*Native Hawaiian/Pacific Islander and American Indian/Alaskan Native were combined into Multiracial/Other due to small sample size.*

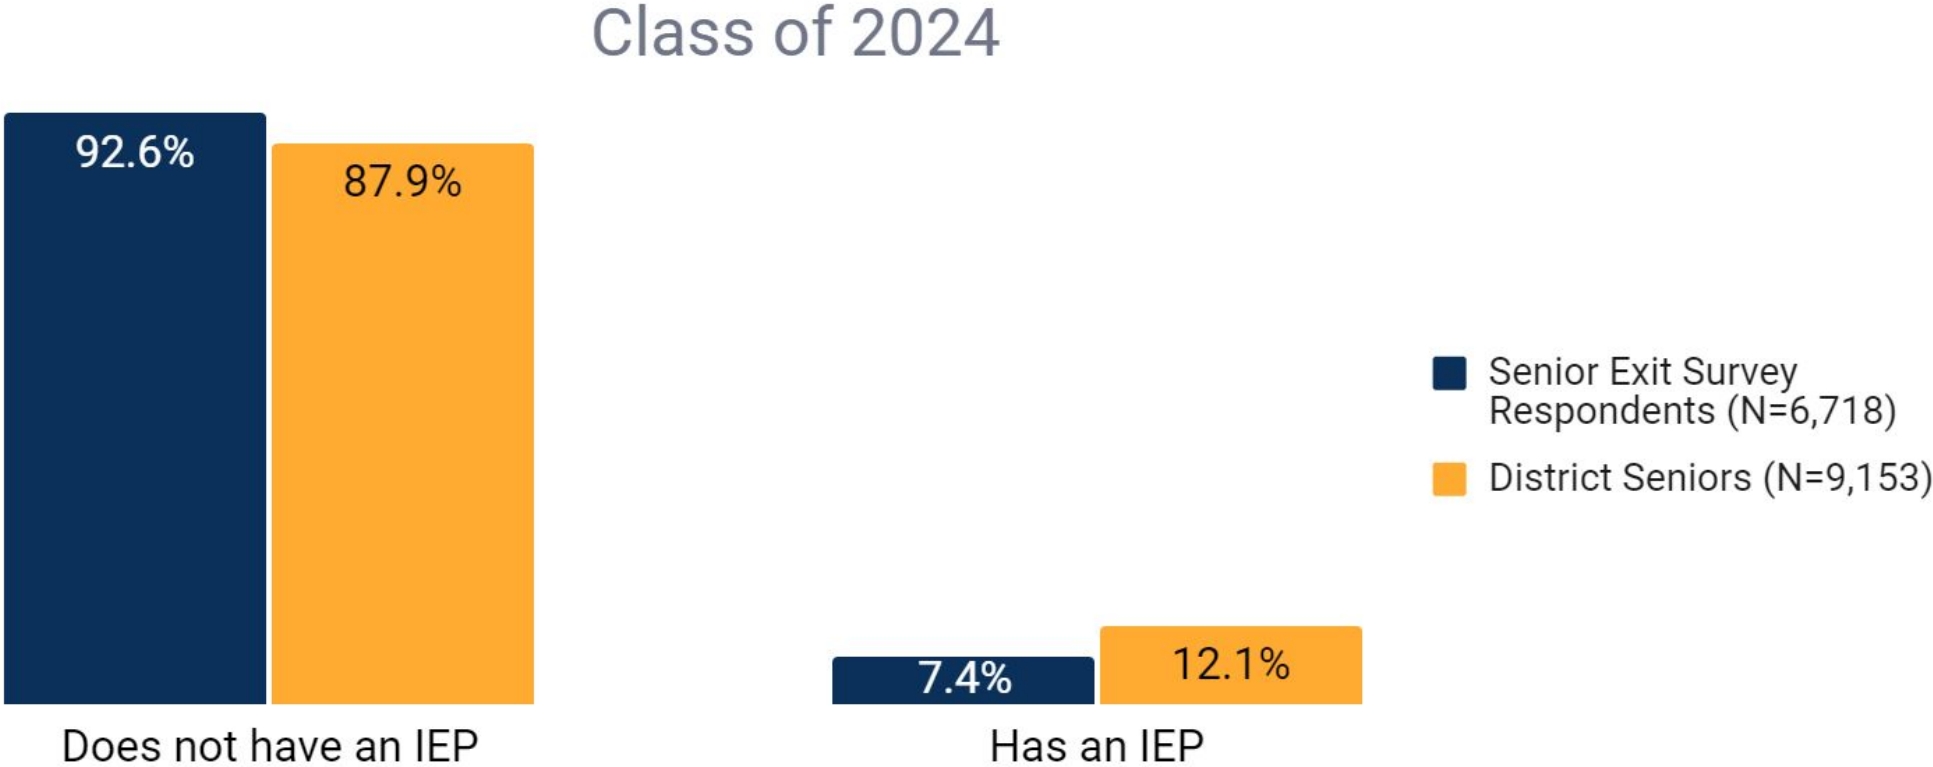

# English Learners (ELs) made up 14.8% of survey respondents and 13.6% of District 12th graders in 2023-24.

Source: Enrollment counts are based on 12th Grade District Enrollment at the time the Senior Exit Survey closed (August 5, 2024).  
Note: District students with missing or unknown demographic information are excluded. See Appendix for list of schools included in sample.

# Students with an IEP made up 12.1% of District 12th graders, but only about 7.4% of Senior Exit Survey respondents.

Source: Enrollment counts are based on 12th Grade District Enrollment at the time the Senior Exit Survey closed (August 5, 2024).  
Note: District students with missing or unknown demographic information are excluded. See Appendix for list of schools included in sample.

A large group of graduates in red and blue gowns are seated on a grassy field, celebrating their graduation. Many are throwing their caps into the air, which are seen flying against a blue sky with scattered white clouds. The graduates are diverse in age and ethnicity, and many are smiling and looking upwards. The scene is festive and celebratory.

# Post-High School Intentions

# Key Findings: Post-High School Intentions of 2023-24 Respondents

- 79.5% of respondents intended to pursue postsecondary education within one year after high school.
- Students who were female, were Asian, were not English Learners, and/or did not have IEPs were highly likely to intend postsecondary education.
- The student group with the highest percentage of respondents intending to pursue postsecondary education was Asian students (88.4%).

\*The comparison group includes all students from the surveyed schools' pool of students who completed the academic year and/or graduated.

## Trends over time: For the 2023-24 cohort, post-high school intentions were comparable to the 2021-22 and 2022-23 cohorts.

**For 2023-24 respondents, a higher percentage of female students responded that they intended to pursue postsecondary education compared to male students (84.3% vs 74.5%), and a higher percentage of male students intended to work (17.8% vs 10.3%).**

Postsecondary Intentions by Student Gender

N=6,683; *non-binary* excluded from calculation due to small sample size.

**For 2023-24 respondents, the student group with the highest percentage of respondents intending to pursue postsecondary education was Asian students (88.4%), and the highest percentage intending work was Hispanic/Latine students (22.6%).**

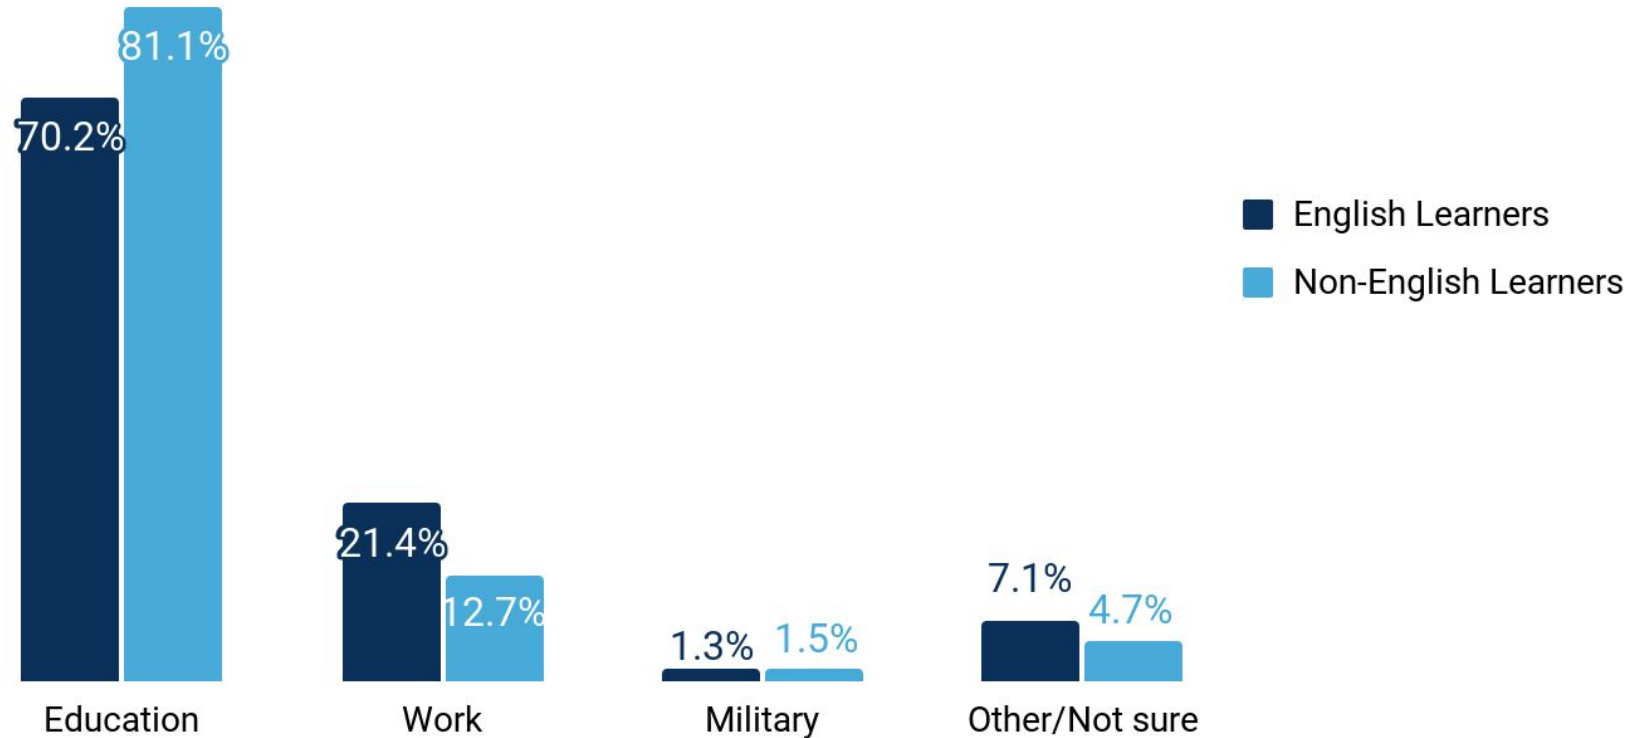

Postsecondary Intentions by Student Race/Ethnicity

N=6,705; Native Hawaiian/Pacific Islander and American Indian/Alaskan Native were combined into Multi-Racial/Other due to small sample size.

**For 2023-24 respondents, a lower percentage of English Learners (ELs) responded that they intended to pursue postsecondary education compared to non-ELs (70.2% vs 81.1%), and a higher percentage of ELs said they intended to work (21.4% vs 12.7%).**

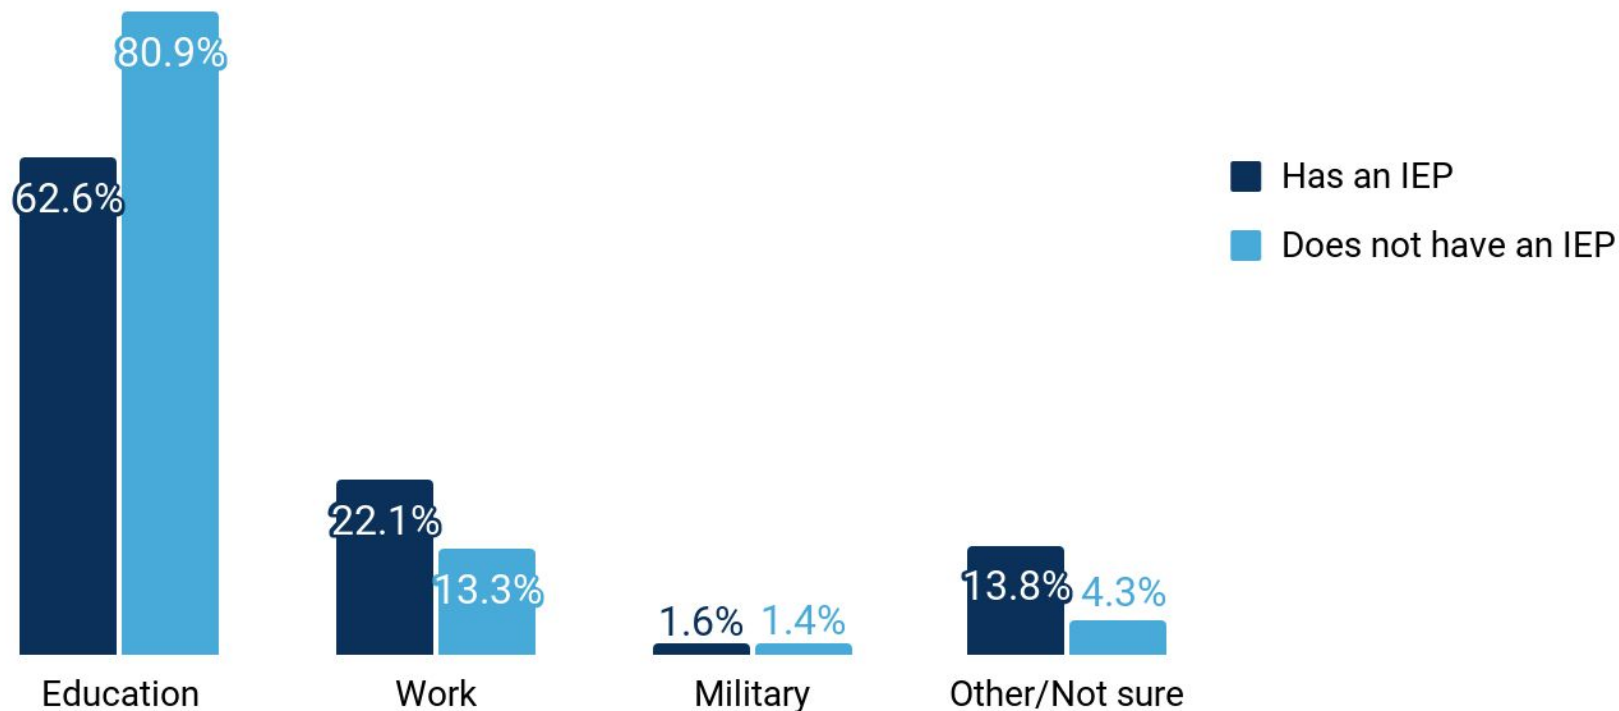

Postsecondary Intentions of Students with and without EL Status

N=6,705

**For 2023-24 respondents, a lower percentage of students with an IEP responded that they intended to pursue postsecondary education compared to students without an IEP (62.6% vs 80.9%), and a higher percentage of students with an IEP said they intended to work (22.1% vs 13.3%).**

Postsecondary Intentions of Students with and without Special Education Status

N=6,705

# Education Plans

# Key Findings: Education Plans of 2023-24 Respondents

- Over half of respondents who intended to pursue postsecondary education indicated that they planned to attend a 4-year college or university.
- About 81% of respondents who intended to pursue postsecondary education also intended to work while in school.
- The most popular choices of major were Health and Medicine; Science, Math, and Technology; and Business.
- About 8% of respondents who intended to pursue postsecondary education also expressed an interest in becoming a teacher in the School District of Philadelphia.
- Over half of respondents applied for the “Free Application for Federal Student Aid” (FAFSA).
- 23.7% of respondents who applied for scholarships or aid had not been awarded or did not know if they had been awarded any aid at the time of taking the survey.
- Of students who indicated they planned to participate in athletics in college, about 45% of respondents planned to participate in NCAA Intercollegiate Varsity Sports (Division I, II, or III).

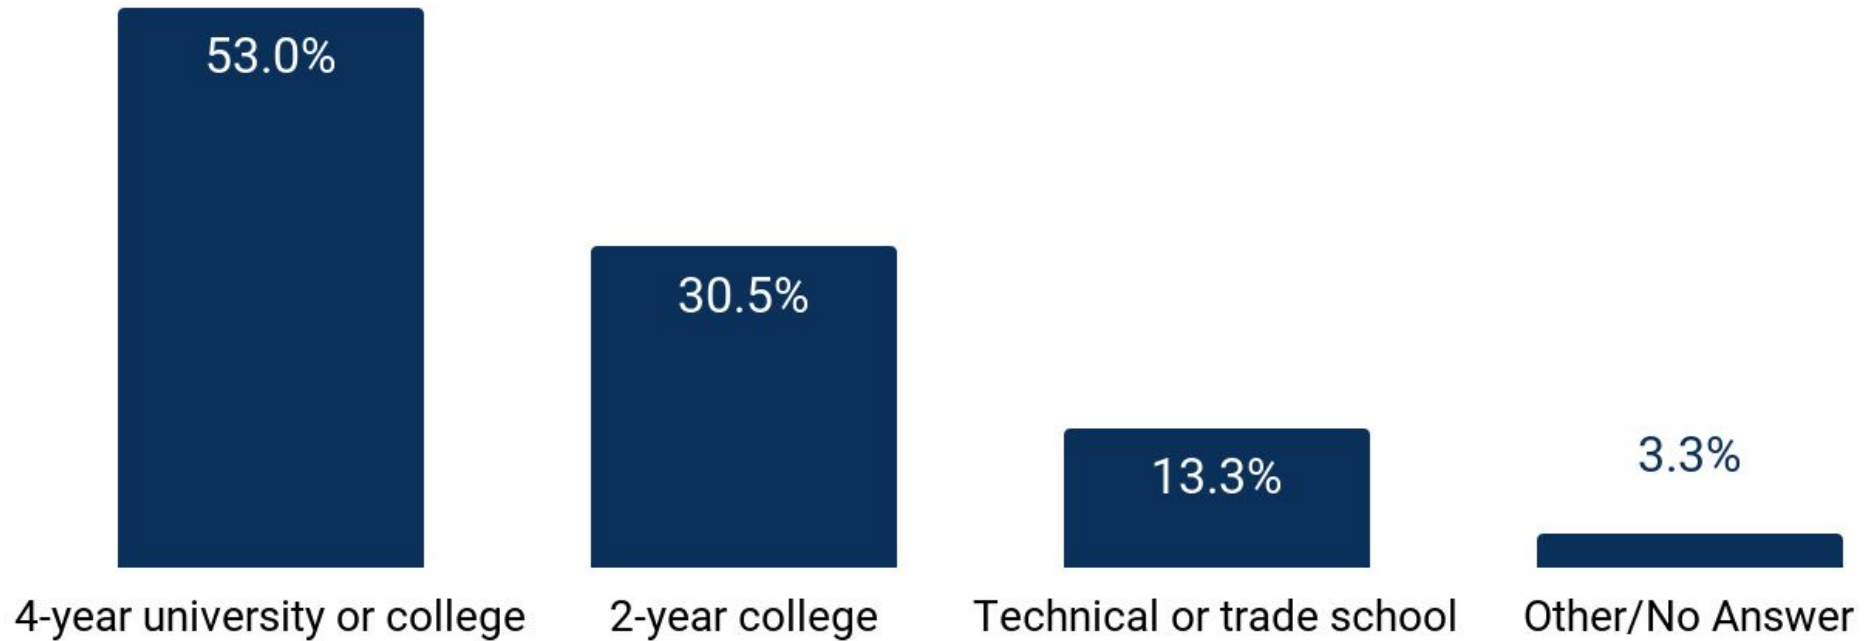

**In 2023-24, responses regarding post-high school plans were comparable to 2022-23, with 79.5% of respondents intending on pursuing higher education after high school (compared to 79.8% in 2022-23) and 14% of respondents intending work (compared to 13.8% in 2022-23).**

Which of the following best describes your plans after high school?

N=6,705

# Over half of respondents who intended to pursue a postsecondary education planned to attend a 4-year university or college.

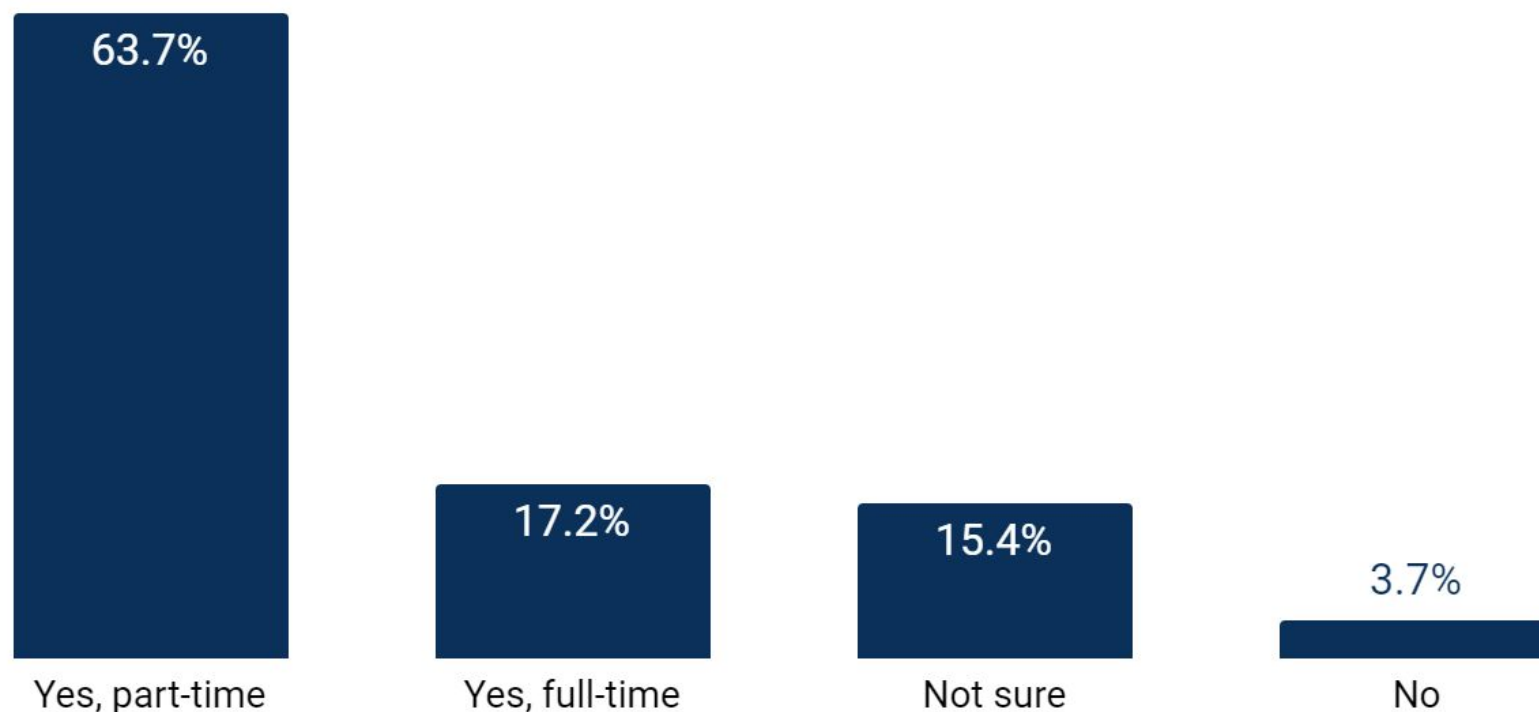

N=5,332; denominator equals respondents who selected postsecondary education for their post-high school plans.  
*Other/No Answer* includes respondents who intend on postsecondary education but did not list a specific type of school.

**About 81% of the 12th graders who intended to pursue a postsecondary education also intended to work (either full-time or part-time) while in school.**

Do you plan on working while attending school?

N = 5,297; sample size is smaller than previous slide because 35 students did not answer this question.

**Among respondents who intended postsecondary education, the top intended majors were Health and Medicine (26.3%), Science, Math, and Technology (19.4%), and Business (18.3%).**

N = 5,332; the sample size consists of respondents who selected Education for their post-high school plans.  
*Other/No Answer* includes respondents who intend on postsecondary education but did not list a specific major.

**Over half (53.2%) of respondents applied for the “Free Application for Federal Student Aid” (FAFSA). Over a quarter (27.4%) of respondents did not apply for any scholarships or aid.**

Did you apply for any college scholarships or financial aid?

N=6,718; students could select multiple categories.  
In this year's survey, *student financial aid* was reworded to *federal student aid*.

# Nearly a quarter (23.7%) of respondents who applied for scholarships or aid had not been awarded or did not know if they had been awarded any aid at the time of completing the survey.

Have you been awarded any scholarships or financial aid?

N=4,879; excludes students who specified they did not apply for aid. Students could select multiple categories. In this year's survey, *student financial aid* was reworded to *federal student aid*.

A large group of graduates in red and blue gowns are celebrating at an outdoor ceremony. Many are throwing their caps into the air, and the caps are seen flying through the sky. The scene is set on a grassy field with trees and buildings in the background under a blue sky with some clouds.

# Work Plans

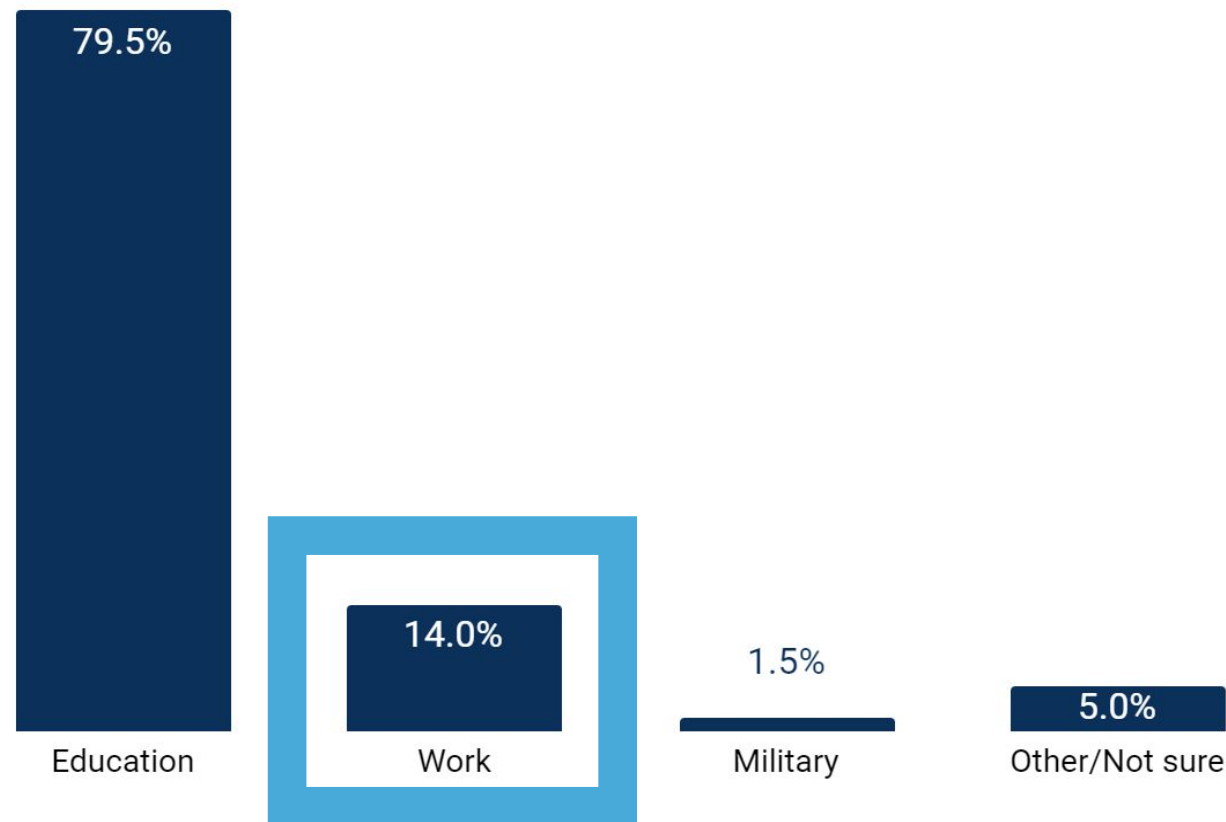

# Key Findings: Work Plans of 2023-24 Respondents

- For students intending to work within one year after high school, the two most common employment fields that students planned to work in were Food Services and Retail/Sales.
- About 17% of respondents intending to work were unsure if they would work part-time or full-time.

# In 2023-24, 14% of respondents indicated that they planned to work after high school and not attend school (compared to 13.8% in 2022-23).

Which of the following best describes your plans after high school?

N=6,705

## Among respondents who intended to work after high school, the top intended fields were food services (15.4%) and retail/sales (13.9%).

N=937; denominator equals respondents who selected Work for their post-high school plans.

*Other/No Answer* includes respondents who intend on work but did not list a specific type of employment.

**About 66% of respondents who intended to pursue work indicated that they intended to work full-time.**

N=895; denominator equals respondents who selected Work for their post-high school plans.

# High School Experiences

# Key Findings: High School Experiences of 2023-24 Respondents

- 45.5% of respondents had an after-school or weekend job and 44.5% had a summer job (Slide 36).
- Nearly a third of respondents participated in school sports, and nearly a third of respondents participated in school clubs (Slide 37).
- Over half of respondents strongly agreed that adults at their school helped them apply for college and navigate their high school graduation requirements related to credits/the service learning project and the state graduation pathways (Slide 39).
- Over 60% of respondents who completed Naviance tasks agreed that Naviance helped them apply for college, complete college applications, explore various career options, and navigate their high school graduation requirements related to credits/the service learning project and the state graduation pathways (Slide 40).
- About 30% of respondents did not feel like they needed any extra support from their school with navigating graduation requirements and college and career planning (Slide 41).
- Over half of the respondents indicated that their family, followed by their teachers, and school counselors, were the most important sources of help in planning for their life after high school (Slide 42).

## While in high school, 45.5% of respondents worked after school or on the weekend, and 44.5% worked during the summer.

N=6,718; students could select multiple categories.

## Similar percentages of respondents (roughly 32%) indicated that they participated in school sports or school clubs in high school.

N=6,718; students could select multiple categories.

## Of respondents who indicated they planned to participate in athletics in college, 45.5% planned to participate in NCAA Intercollegiate Varsity Sports (Division I, II, or III).

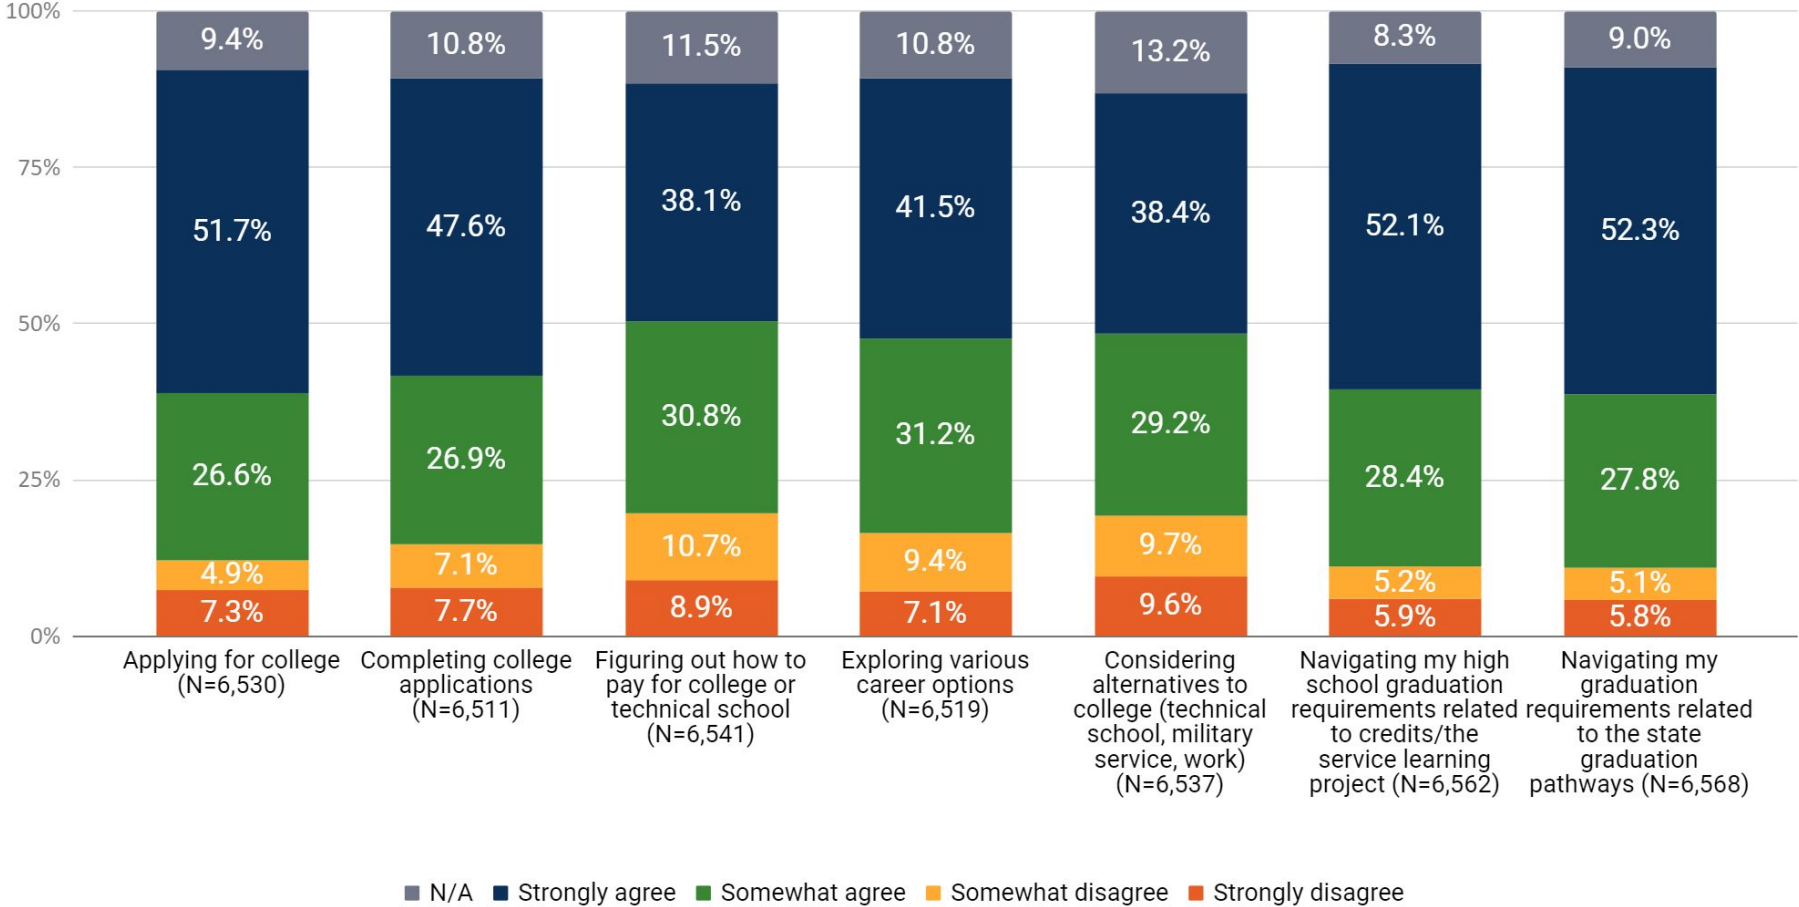

Are you planning to participate in athletic activities while in higher education?

N=1,104; only students who selected *school sports* or *sports outside of school* in the previous slide were asked about their plans for athletic activities while in higher education. Out of 2,084 respondents who selected these two options, 1,104 planned to participate in athletics in college and 980 responded that they were *not planning to participate in athletics in higher education*.

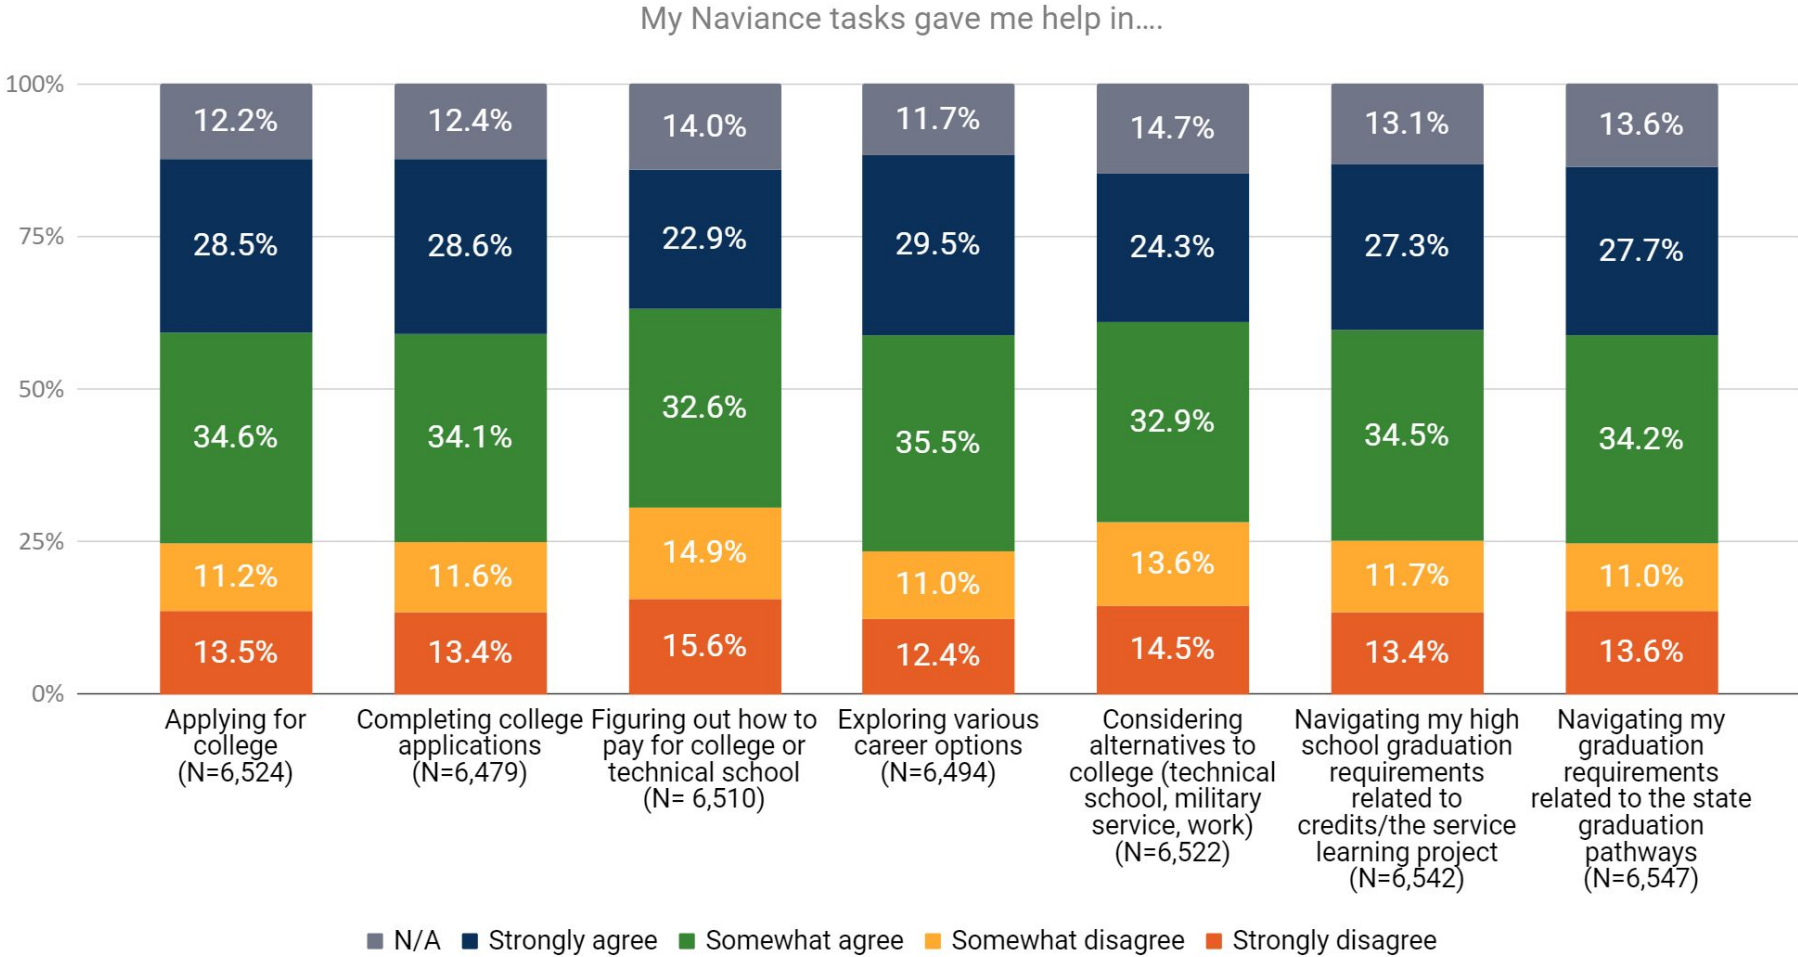

# Over three quarters of respondents agreed that adults at their school helped them apply for college and navigate their high school graduation requirements.

Adults at my school (including counselors, teachers, support staff, and/or program staff), gave me help in....

Percentages may not add up to 100% due to rounding. N/A (I did not need help in this area from anyone at my school) is an answer option.

# Over 60% of respondents who completed Naviance tasks agreed that Naviance helped them apply for college, complete college applications, and explore various career options.

Percentages may not add up to 100% due to rounding. N/A (I did not complete any Naviance tasks in this area) is an answer option.

# Nearly 31% of students expressed that they did not need any extra support from their school, while about 18% indicated a need for assistance in figuring out how to pay for college or technical school.

Thinking back on your high school experience, in which of the following areas would you have wanted MORE support from your school(s)?

N=6,582

# Over half of the respondents indicated that their family, followed by their teachers and school counselors, were the most important sources of help in planning for their life after high school.

N=6,718; students could select multiple categories.

A large group of graduates in red and blue gowns are celebrating at an outdoor graduation ceremony. Many are throwing their caps into the air, and the scene is filled with excitement. The background shows a grassy field and some trees under a blue sky with light clouds.

# Career and Technical Education (CTE) Graduates

# Key Findings: Career and Technical Education (CTE) Graduates

- Respondents in this analysis were considered CTE respondents if they indicated participation in a CTE program in the survey.
- 21.4% of Senior Exit Survey respondents self-identified as CTE students (N = 1,425).
  - 15.2% of Senior Exit Survey respondents reported that they graduated from a CTE program
  - 6.2% of Senior Exit Survey respondents reported that they graduated from a CTE program and completed a program that offers an industry certification
- Overall, CTE respondents had similar plans for further education, majors, and employment to non-CTE respondents.
  - The largest difference occurred in majors related to Trade and Personal Services, STEM, and Social Sciences (Slide 46).
  - The largest differences in employment plans related to Technical, Professional, and Personal Services (Slide 47).
- Nearly a quarter of CTE respondents were unsure whether they had earned industry certifications (Slide 48).
- Most CTE respondents planned to use their industry certifications in some capacity in the future (Slide 48).

# CTE respondents had similar post-graduation plans as non-CTE respondents, with the majority planning further education.

Which of the following best describes your plans after high school?

**For those planning further education, CTE and non-CTE respondents chose similar majors, but more CTE students chose Trades and Personal Services majors (19.3% vs 12.4%), and fewer CTE students chose Science, Math, and Technology majors (16.3% vs 20.4%) and Social Science majors (4.5% vs. 7.9%) than non-CTE students.**

**For those planning on employment immediately after high school, CTE and non-CTE respondents had similar plans, but more CTE respondents planned to work in Construction, Professional, and Technical work compared to non-CTE respondents, and more non-CTE respondents planned to work in Food services, Retail/sales, Personal services, and Office work compared to CTE respondents.**

# Education Plans of 2023-24 CTE Respondents

Do your post high school plans (such as your job or intended college major) relate to your CTE program of study?

N=1,415

Did you earn any industry certifications?

N=1,413

Do you plan to use your industry certifications after graduation?

N=891

# Plans for Industry Certification of 2023-24 CTE Respondents

How do you plan to use your industry certifications after graduation?

Full answer options:

(a) To apply for and secure employment specific to the certification

(b) To improve my hiring, promotion, and/or pay increase opportunities

(c) To earn additional advanced certifications in the same field

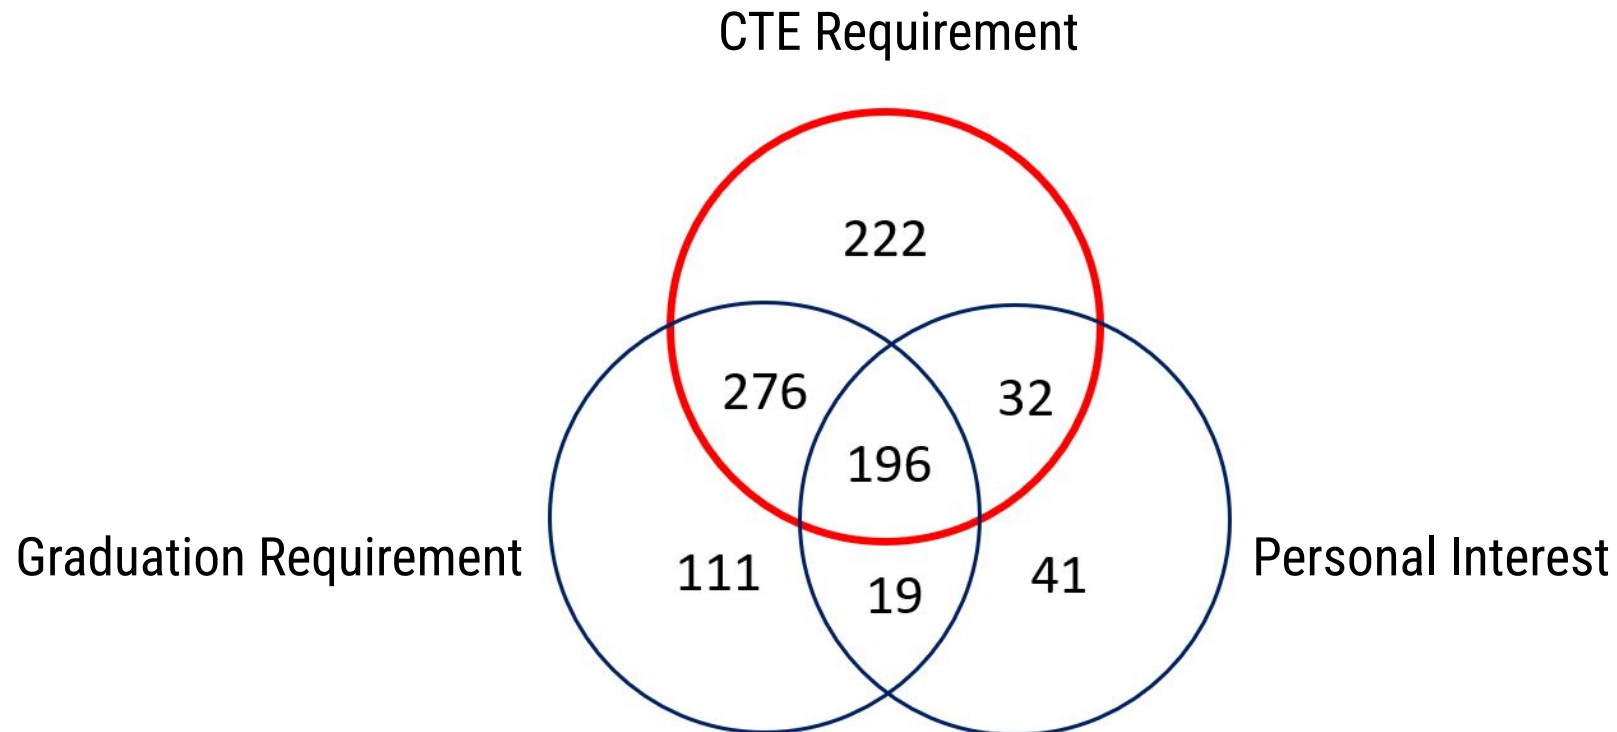

(d) To further my education

N=1,425; denominator equals the number of respondents who responded yes to earning industry certification. Students could select multiple categories.

**A majority of CTE respondents (726 out of 897 respondents or 81%) indicated that they earned an industry certification as part of their CTE requirement.**

Why did you earn an industry certification?

This figure shows the responses of the 897 students who answered this question. The outer circles represent the number of students who selected only one reason for earning an industry certification. The inner overlapping circles represent the number of students who selected two reasons. The innermost circle represents the number of students who selected three reasons for getting an industry certification. This question was newly added to the survey in 2023-24.

A large group of graduates in red and blue gowns are celebrating at an outdoor graduation ceremony. Many are throwing their caps into the air, and the caps are seen flying through the sky. The scene is set on a grassy field with trees and a building in the background under a blue sky with some clouds.

# Appendix: Selected School-Level Data

# 2023-24 Overview: Appendix

The 2023-24 Senior Exit Survey was administered to students enrolled across 78 schools.

- 77 out of 78 schools had at least one student complete the survey

Selected school-level data include:

- Response rates by school
- Student perceptions of the support they received from adults at their school

Individual 2023-24 Senior Exit Survey school-level reports are located [here](#).

## Appendix: Response Rates by School
