# Creating a Tooltip Stepper

A message that appears when a cursor is positioned over specific text.

1.) Edit the page you would like the Tooltip to be placed on.

2.) Place the mouse cursor in the editor where you want the Tooltip text to be inserted.

3.) In the toolbar, click on the Tooltip icon (the icon resembles a "conversation bubble") on the first row of icons. It will then insert a shortcode (simple_tooltip) inside of the editor.
